## SIGNS ITS TIME TO GET YOUR EYES CHECKED

Frequent headaches

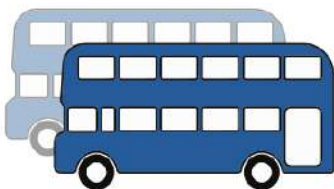

Difficulty seeing at night.

Eye strain or fatigue.

Double vision

Blurred vision

If you experience these symptoms it is time to get your eyes checked...

## MOSQUITOES KNOW WHAT YOU SMELL LIKE

Mosquitoes have neuronal fail-safes to make sure they can always smell humans. Female mosquitoes have neuro receptors on their antenna to sense the unique body odour cocktail all humans emit. A group of researchers found that mosquitoes have evolved redundant fail-safes in their olfactory system that make sure they can always smell our scents (which explains why your citronella oil doesn't keep the blood-sucking critters away).
